BESPOKE DESIGN VOUCHER

Dear Client

This design voucher enables you to have a piece of jewellery made exclusively for you, incorporating features that make this special gift unique. To redeem your voucher please contact me so we can discuss your design consultation and the making of this special piece.

However to start your imagination running I have enclosed in this folder some ideas for you to peruse. Please don't worry if you haven't a fixed design in mind as we will explore lots of possibilities as we go through the process.

These images are produced by CAD [Computer Aided Design] software which is a fantastic tool that allows me to bring to life concepts and ideas before I even begin to think about making the final item, which lets us to develop the perfect design together.

When we next speak I will provide you with some guidelines which will help us both achieve the result we desire.

I very much look forward to hearing from you.

Kindest regards

Christopher
